1 Overview

Looking at the effect of using different values for fmax in χ pod processing.

2 Methods

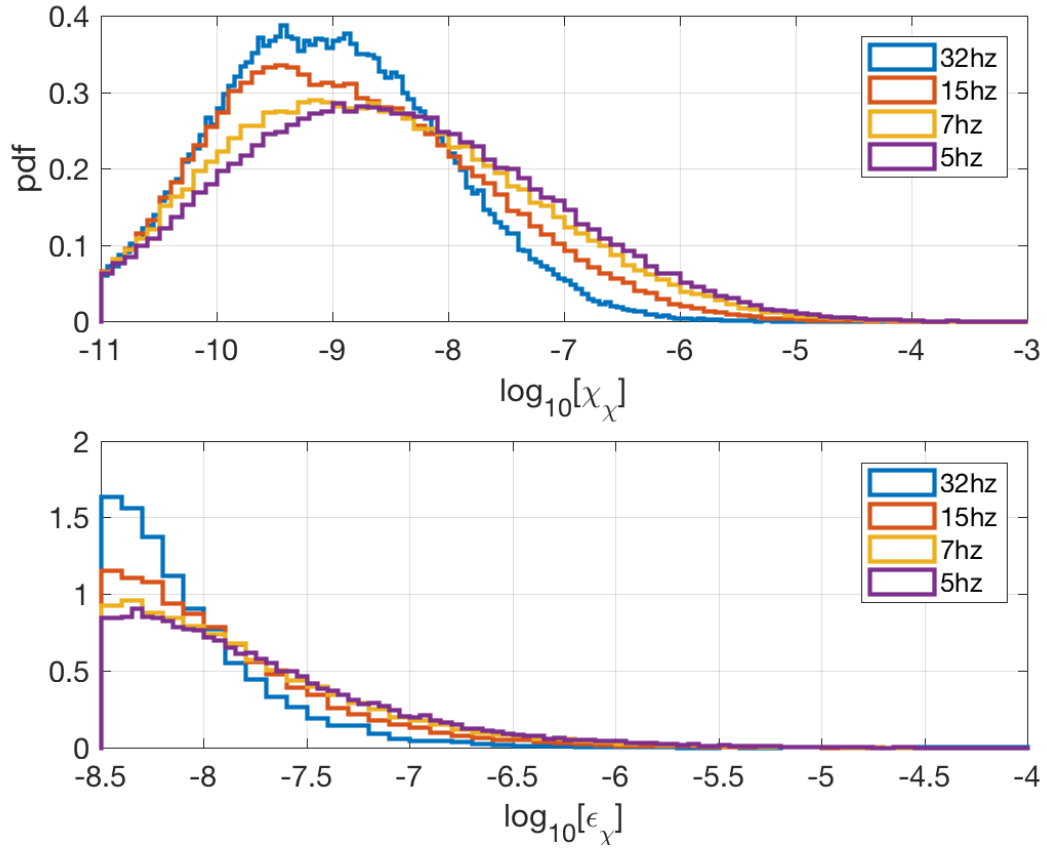

Figure 1: Histograms of χ_χ and ϵ_χ for different values of fmax.

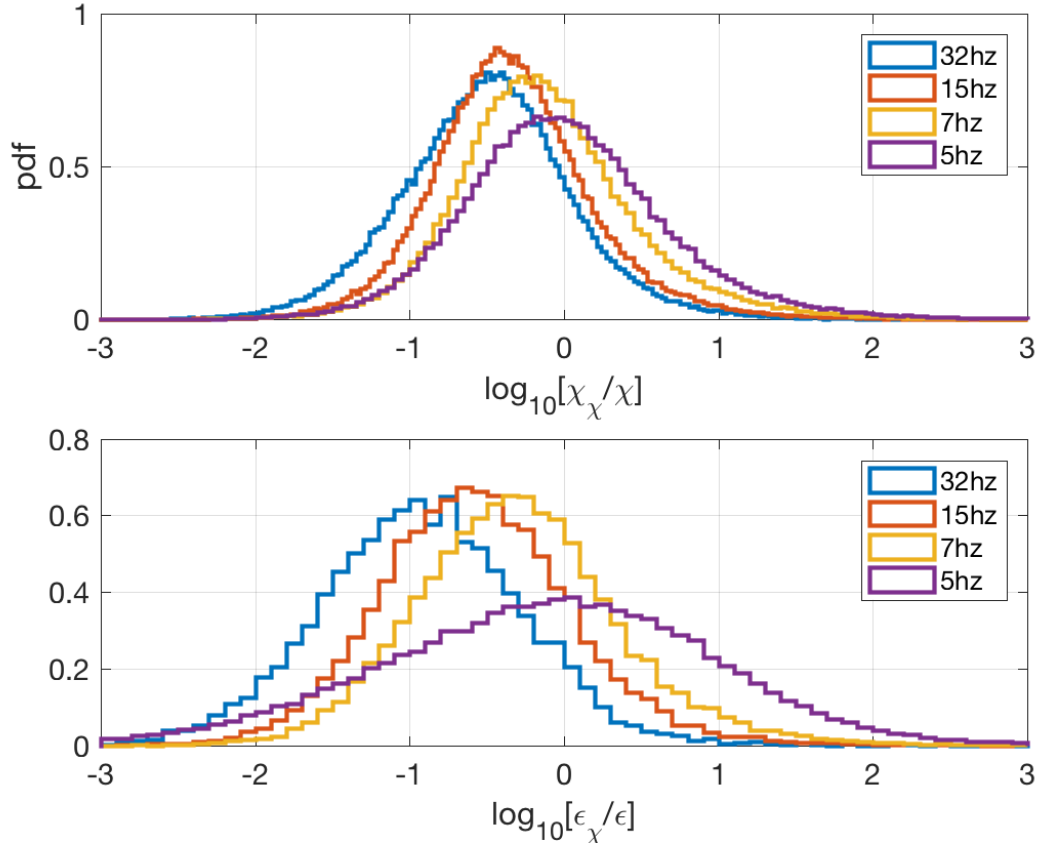

Figure 2: Histograms of the ratio of χ_{chi}/χ and ϵ_{χ}/ϵ for different values of f_{\max} .

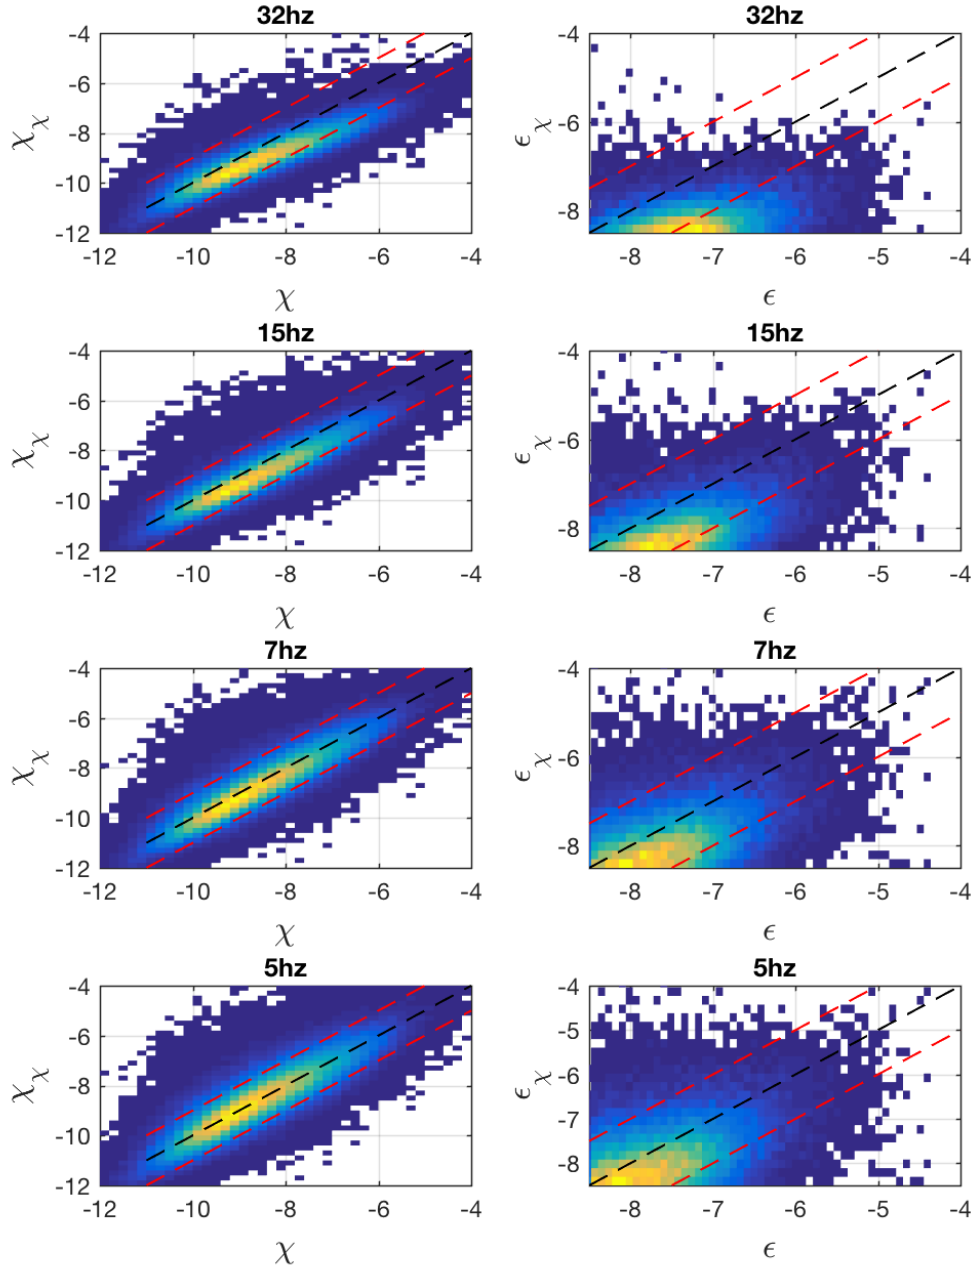

Figure 3: 2D Histograms of χ_{chi} vs χ and ϵ_{χ} vs ϵ for different values of f_{\max} .
